PROFESSIONAL OVERVIEW

Training & Quality Governance leader with 14 years of experience across Tech, Consulting, Fintech, and Geospatial domains. Expert in building scalable training ecosystems, driving capability development, and leading multi-layered teams. Proven success in upskilling programs, ideation initiatives, digital learning transformation, and competency-based development. Strong in training ROI, stakeholder management, induction design, and process governance, with a track record of reducing Time-to-Proficiency by 40% and improving accuracy across global operations.

KEY ACHIEVEMENTS

- **Operational Scalability:** Architected a rapid onboarding framework for a Fortune 500 Search & Tech Giant, reducing Time to Proficiency by 8 days, enabling 25% volume scaling.
- **Brand & Design Governance:** Revolutionized Visual Storytelling standards for a "Big Three" Global Consulting Firm, reducing the proficiency curve to 2 weeks for elite executive level assets.
- **Accuracy Optimization:** Engineered a predictive audit to training feedback loop for a leading Identity Verification (IDV) Fintech, reducing critical accuracy errors by 2%.
- **Leadership Multiplier:** Directed a vertical of 40+ specialists through 4 Assistant Managers, maintaining a 98% Training Satisfaction score.
- **Process Architecture:** Authored 50+ regional data modeling policies integrated into a global Knowledge Base for a leading geospatial service provider.
- **Capability Acceleration:** Designed and executed structured upskilling programs that improved competency levels, reduced SME dependency, and strengthened operational readiness.
- **Innovation Enablement:** Launched and facilitated ideation programs that captured frontline insights and converted them into high impact training, quality, and process improvements.
- **Digital Learning Transformation:** Digitized legacy training content into interactive modules, microlearning assets, and visual job aids, improving accessibility, consistency, and reducing trainer led time.

WORK EXPERIENCE

Manager – Quality & Training

WNS Global Services, Hyderabad & Vizag | 2022 – present

Clients: Global Ride Hailing Leader | Tier 1 Consulting Firm | Fintech IDV

Lead Training & Quality Governance across multiple global LoBs, driving capability development, audit excellence, and operational readiness while modernizing learning systems and strengthening stakeholder alignment. Lead Quality Governance across multiple LoBs; manage 2 Deputy Managers to ensure audit accuracy, compliance, and strong RCA practices.

- Govern Training & Quality for the Visual Communications division of a Tier 1 Consulting firm, supporting high stakes Information Design workflows.
- Drive end to end training for Fintech IDV workflows, ensuring accuracy, data integrity, and audit readiness.
- Designed and executed structured upskilling programs to strengthen capability across teams and reduce SME dependency.
- Led ideation programs to gather frontline insights and convert them into training improvements and workflow enhancements.
- Digitized legacy training content into interactive digital modules, microlearning videos, and visual job aids, improving accessibility and reducing training time.
- Partner with cross functional stakeholders to align training and quality processes with client expectations and operational goals.

Training Manager

Wipro, Hyderabad | 2017 – 2022

Client: Global Geospatial & Search Giant

Owned the training lifecycle for a 40-member vertical, driving global knowledge governance, competency development, and process standardization across geospatial workflows.

- Managed the training lifecycle for a 40 member vertical supported by 4 Assistant Managers.
- Collaborated with Regional Analysts to develop 50+ geospatial data modeling policies, ensuring clarity and consistency across regions.
- Led global Knowledge Base governance, ensuring structured updates, version control, and content accuracy.
- Introduced structured upskilling paths to help team members progress from basic to advanced competency levels.
- Digitized SOPs and training materials into easy to update digital formats, improving consistency and reducing onboarding time.
- Facilitated cross functional ideation sessions to identify training gaps and generate actionable improvements.
- Supported operational teams with refresher training, performance coaching, and process clarifications.

Associate Lead – Operations

Teleperformance, Hyderabad| 2012 – 2017

Clients: Global Geospatial & Search Giant

Led a high-performing operations and quality team, driving productivity, accuracy, and process adherence while supporting training and transition activities.

- Managed a 15-25 member team and consistently exceeded productivity goals by 5% while maintaining 99% quality.
- Conducted deep dive audits of complex datasets and established quality benchmarks.
- Provided floor support, coaching, and process clarifications to improve team performance.
- Supported new hire training and transition activities.

Trainee

HINDUSTAN AERONAUTICS LIMITED (HAL), Hyderabad| 2009 – 2010

Supported engineering and documentation functions in an aerospace environment, developing precision, compliance, and process discipline.

- Developed strong documentation discipline and process accuracy in an aerospace environment.

EDUCATOR

Early Career, Hyderabad| 2008 – 2009

Delivered classroom instruction and foundational learning experiences, building core strengths in communication, facilitation, and learner engagement.

- Built foundational teaching, communication, and facilitation skills that strengthened later L&D leadership roles.
